

AGRICULTURE & CROP PROTECTION

Move Price Changes, Rebates and Quality Checks **Out of Email.**

Every formulation. Every market. Nothing leaves home.

Document management and no-code workflows for crop protection, agrochemical and fertilizer manufacturers, inside the Microsoft 365 you already own. Built in, not bolted on.

Approvals - Crop Protection

Price change - Herbicide 480 SL Zones North, Central - next month	Approved
Distributor rebate request Price drop on held stock	In review
QC batch release check Lab → Quality → Plant head	Approved
Safety data sheet v5 Fungicide 250 EC - awaiting approval	Pending

50%

faster travel approvals at a global crop protection manufacturer

14M

documents managed in a single Microsoft 365 tenant at Gujarat Fluorochemicals

\$0

extra license cost for each distributor or partner using your portal

SOUND FAMILIAR?

Where Agribusiness Paperwork Breaks Down

Every price change starts an email chain

Each tweak needs a long line of approvals while the market keeps moving.

Rebates nobody can track

Distributor rebate requests get lost across inboxes, delaying approvals and payments.

Quality checks on paper

As production scales, manual QC steps limit visibility and raise risk.

WHAT TITAN DOES FOR AGRIBUSINESS

Five Capabilities, One Platform, Your Tenant

A Pricing & Rebates

- Price changes by product, zone and date
- Rebates on a live dashboard

B Plant Quality & SOPs

- Automated QC approval workflows
- SOPs with versions and review dates

C Registration Files

- Dossiers, SDS and labels version-controlled
- Approval before a new version is released

D Distributor & Partner Portal

- Distributors and consultants join as guests, no license
- Each partner sees only what you share, every view logged
- Onboard 50 partners in about 20 minutes, not 5 days

E HR & Admin Workflows

- Travel requests routed by type: R&D, Plants, Others
- Offboarding with access revocation and reminders

SEE IT IN ACTION

A Price Change, From Request to the New Price List

- 1 Capture the change once**
Product, current price, increase or decrease, zones and effective date in one form.
- 2 Route every approval**
Each approver is notified in turn, with no email chains to chase.
- 3 See the bottleneck**
Every step is visible and on record, so slow steps can be fixed.

CUSTOMER SUCCESS STORY · CROP PROTECTION

ADAMA Moved Quality Checks and Employee Offboarding Out of Email, Into Titan

- ✓ Global crop protection company selling in over 100 countries, part of Syngenta Group
- ✓ Quality check approvals moved off manual email chains and paper
- ✓ Employee offboarding automated across HR, IT, legal and finance

No-code

Titan workflow automation, in their own tenant

0

files moved to a third-party cloud

BUILT FOR EVERY PART OF AGRIBUSINESS

Crop Protection

Agrochemicals

Fertilizers

Seeds

Specialty Chemicals

Contract Formulators

BUILT IN: Version history · Approval trails · Per-person access · SOP acknowledgement · Data stays in your region

WHY TITAN

- ✓ **Your tenant, your data**
Files never leave your Microsoft 365 or data region.
- ✓ **No new software to learn**
Works in the SharePoint and Teams your people already use.
- ✓ **Up to 80% less**
than custom development, with no IT rebuild.

Every formulation. Every market. Nothing leaves home.
