

MANUFACTURING & INDUSTRIAL

Stop Chasing Drawing Revisions and Approval Emails

Every revision. Every plant. Nothing leaves home.

Engineering, quality, and supplier documents, controlled inside the Microsoft 365 you already have. One governed system, audit-ready every day.

ECN-1042 approved
Design → Quality → Production

14M

documents governed in one Microsoft 365 tenant

70%

better document security and search at an automotive manufacturer

80%

cost savings vs. custom workflow development

SOUND FAMILIAR?

Where Manufacturing Documents Break Down

The floor builds from an old revision

A drawing changes, but printouts and shared folders don't.

Approvals get lost in email

ECNs and deviations stall, and no one can prove who signed off.

Every audit means a week of rebuilding

SOPs, training proof, and CAPAs are scattered everywhere.

WHAT TITAN DOES FOR MANUFACTURERS

Five Capabilities, One Platform, Your Tenant

A Engineering Document Control

- Drawings, BOMs, and specs with full revision history
- No-code ECN/ECO approvals

B Supplier Quality Portal

- Secure guest portal inside your tenant
- Certificates, PPAP packages, and SCARs in one place

C Quality & Compliance

- Controlled SOP library with read-and-understood records
- NCR, CAPA, and 8D workflows

D Process Automation

- Change, deviation, and PO approvals with e-signatures
- Inspection checklists and incident reports

E Frontline & Shop Floor Access

- Current SOPs and work instructions on any device
- Plant announcements and tasks inside Microsoft Teams

SEE IT IN ACTION

A Change Notice, From Approval to the Shop Floor

- Multi-stage sign-off**
Design, quality, and production approve in order, with no email chains.
- Released-revision control**
Rev C goes live; Rev B is marked obsolete automatically.
- Full audit trail**
Every view, edit, and approval is recorded with name and time.

WHY TITAN

- ✓ **Your tenant, your data**
Nothing leaves your Microsoft 365.
- ✓ **No-code, live in days**
No SharePoint or Power Platform developers.
- ✓ **Works with ERP and CAD**
Titan governs the documents around them.

Every revision. Every plant. Nothing leaves home.
